

"Year of the recovery and consolidation of the Peruvian economy"

Tacna, May 02, 2025

OFFICIAL No. 282-2025-GG-ZOFRATACNA

Messrs:

FRIGORIFICOS KOBEOOD SAC

User of ZOFRATACNA

Present.-

Subject: Recognition for being part of the team of selected companies and for the commitment to participate in the Eco Industrial Park Development Project in Peru Phase II in ZOFRATACNA with the support of ONUDI.

Reference.: Commitment Agreement signed with ONUDI, for participation in the Eco Industrial Park Development Project (PEI) in Peru Phase II, transit to recognition of ZOFRATACNA as a PEI.

We are pleased to address you, on behalf of the Management Committee of the Free Trade Zone and Commercial Zone of Tacna ZOFRATACNA, to cordially greet you and at the same time extend our appreciation for having been incorporated into the team of companies selected by ONUDI, to participate in the Project "Development of Eco-Industrial Parks in the Republic of Peru"¹, which is part of the Global Eco-Industrial Parks Program (GEIPP); and implemented by the United Nations Industrial Development Organization (ONUDI), which is aimed at helping to strengthen and promote the recognition of the Tacna Free Trade Zone on the southern border of Peru, as an Eco-Industrial Park (PEI) with the support of ONUDI.

Based on the above, we are pleased and grateful that the company FRIGORIFICOS KOBEOOD S.A.C. has signed the Agreement with ONUDI and has decided to face this commitment, which, as stated in its Agreement, is being presented together with its strategic partner BLUEGRACE ENERGY BOLIVIA S.R.L.

We believe that this stage will significantly benefit the operation and business vision of your company because ONUDI will help you with its own recommendations of the diagnosis and analysis of the improvements that would allow you as a company to raise your environmental and social standards in such a way that it contributes to the development of sustainable Peruvian industry; as well as the transformation of ZOFRATACNA in a recognized Eco Industrial Park of international level according to the criteria validated by ONUDI.

This experience will also give them the possibility to develop studies on resource efficiency and cleaner production (RECP); technical assistance and advisory services

¹The project "Development of Eco-Industrial Parks Peru - Phase II" is executed by the *United Nations Industrial Development Organization (ONUDI)*, with funds from the Swiss Economic Cooperation (SECO Peru). For the management of the **PEI Peru-Phase II Project** there is a Project Management Unit (PMU), which is headed by the PEI Project National Coordinator. ONUDI is the entity that provides the PEI Project with the transfer of technical knowledge and experiences acquired in other countries, among other relevant aspects.

specialized to carry out activities related to the methodology for the identification of opportunities for efficient use of resources, synergies and industrial symbiosis, circular economy; as the case may be; as well as could participate in events for dissemination, promotion and presentation of project results, previously arranged with the ONUDI team.

Finally we consider that all this is fully articulated according to what you have commented, with the framework of global decarbonization actions and compliance with the Sustainable Development Goals of the United Nations, where we understand that FRIGORÍFICOS KOBEOOD S.A.C. (FKF) and its strategic partner Bluegrace Energy Bolivia SRL have been promoting a sustainable investment program through the tokenization of carbon credits derived from certified forest capture and as part of this strategy, the strategic partnership in FRIGORÍFICOS KOBEOOD S.A.C. (FKF) was formalized through an investment in BGACT Tokens (Bluegrace Amazon Carbon Token), traceable digital assets aligned to voluntary market standards.

Accordingly, your company is consolidating its environmental commitment through its active participation in ONUDI's PEI Peru Phase II Project, aimed at transforming industrial parks into world-class eco-industrial ecosystems.

We also take as relevant your statement that for the company it is of vital importance that before any agreement with the United Nations it is reflected that it is aligned to decarbonization and sustainability in compliance with the Sustainable Development Goals (ODS) and ESG² of the UN⁴ CDM³ Paris 2015 agreement.
